BUNKER HILL VILLAGE
NEWSLETTER

PUBLISHED BY THE CITY OF BUNKER HILL VILLAGE | WWW.BUNKERHILLTX.GOV

FEBRUARY 2018

Dear Residents –

We have several key items to share this month. Please see the articles and details in this insert on the following topics:

- We are hosting our Annual State of the City Open House on Tuesday, March 20 at 5:00 p.m.
- We will be getting a new trash and recycling provider in March
- The Memorial Villages Relief Fund has been approved by the IRS as a 501 (c) (3)
- The Memorial Villages Police Department provides the latest “TIPS” to keep and take care of your valuables and shares upcoming training opportunities for women
- We are gearing up for our drainage and utility construction projects
- Please register your alarm on v-linc

As we noted in our December Newsletter, the City is planning the construction of a large drainage project in the Taylorcrest Road, Bunker Hill Road, North Williamsburg Lane and Cobblestone Drive Areas. This is our highest priority drainage project in the City as identified in the City’s Drainage Master Plan. This project will also include needed water and sewer rehabilitation in these areas. In addition, there is a project to install new water lines along Blalock Lane, Flint Forest Lane and Wendover Lane replacing old, problematic lines. We will share all project information as it is available and will hold neighborhood meetings as well.

Please join us on v-linc to make sure you have all the information on these projects and other city news.

Karen Glynn, City Administrator

P.S. **A friendly reminder:** Bunker Hill residents love our trees. A tree permit is required to remove any tree ...either dead or alive. Thank you!

New Solid Waste and Recycling Service Provider
Meet Texas Pride Disposal

Republic Services requested the City of Bunker Hill Village to allow the transfer of our Solid Waste and Recycling Contract to Texas Pride Disposal. Republic Services is getting out of the “back door” – “visible from the street” service. The change is planned in the March timeframe.

The City has met with Texas Pride Disposal and feels confident that this change will be seamless and residents will still have excellent solid waste and recycling services. In fact, the current Republic Services Employees for our area will actually remain in the area and become Texas Pride Employees.

Trash and recycling days will remain the same. In addition, Texas Pride will continue utilizing our existing recycling carts. The main change will be the color of the trucks ... *you can expect to see black and white Texas Pride Trucks once the change happens.*

More information will be coming your way via mail, v-linc and the City’s website including the actual date for the change. Thank you!
